

- Heavy duty wire rope cutter designed for use in harsh environments including nuclear
- Hydraulically operated anvil for easy ROV deployment
- Robust construction with steel cylinder and aluminium body
- All steel components are electroless nickel plated to resist corrosion
- Long blade life ensures that tool maintenance is kept to a minimum
- Optional intensifier panel is available
- Suitable for use in storage ponds
- Capable of cutting wire rope, cables, steel & stainless steel piping and sections
- 690 bar maximum input pressure for main cylinder
- 200 bar max input pressure for anvil
- Approx weight in air – 235kg
- Approx weight in water – 189kg
- Can be operated with mineral oil, water or water/glycol mix
- Standard tool is shown above. Bespoke and custom designs to suit special applications are available on request
