

- **Versatile:** Perfect for deep sea operations or deck-mounted planned production cutting
- **Dependable:** Designed to cut the toughest armoured export cables and flexible production risers
- **Easy to use:** Hydraulically operated anvil for fast ROV deployment
- **Durable:** Engineered to last in the harshest of environments
- **Reliable:** Proven Webtool technology gives cutting edge performance
- **Powerful:** High output force ensures a successful cut
- **Low maintenance:** Long blade life ensures minimal servicing

Contact our engineering team to arrange cut trials or to discuss bespoke designs.
All products are made in the UK.

Technical Specifications

- Maximum Ø330mm cutting capacity
- 690 bar maximum input pressure
- Approx weight in air: 545kg
- Approx weight in water: 475kg
- Swept volume cut stroke: 7.9 litres
- Swept volume return stroke: 2.6 litres

Spare Parts and consumables

- Seal Kit (AS00023)
- Blade (PT00145)
- Anvil (PT00292)

Additional Extras

HP690A – Hydraulic Intensifier

Hydraulic panel with minibooster intensifier and additional safety circuits that prevent overpressure when returning to the surface. Available in a range of intensification.

HTP - Hydrostatic Test Pump

Hydrostatic test pump complete with tank, skid, handle and pressure gauge. Perfect for testing any hydraulic equipment. Available in a range of pressures up to 1000 bar.

Hydraulic Hoses

High quality hydraulic hoses to suit Webtool cutters or bespoke applications. Available in a range of pressure ratings and end fittings.
